# PVCu WINDOWS & DOORS ARE BETTER WITH ANGLO STEEL REINFORCEMENT

- ✓ 10-year warranty
- ✓ Life-time performance
- ✓ Improved manufacturing efficiency
- ✓ Reduced costs

Modern windows are high performance products. There's a trend for bigger window sizes and the increased demand for coloured frames means they must withstand greater expansion and contraction in the sun. Windows are also often tested to PAS 24 to achieve Document Q and Secured By Design.

Anglo European steel reinforcement is engineered and optimised to improve window and door manufacturing and lifetime performance.

## MODERN PVCu WINDOWS DEPEND ON CORRECT REINFORCEMENT

### 10-YEAR WARRANTY ON STEEL REINFORCEMENT

Anglo European steel reinforcement is covered by a 10-year warranty against failure caused by manufacturing defects.
